

executive office desk | SPIDER

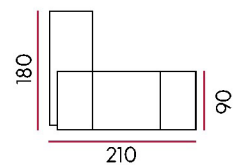

description:

Spider Executive Office Desk has a distinct modern appeal with its smooth organic die-cast aluminium legs. The main working surface is in a clear 10mm glass revealing the delicate office legs below and their structure. A leather patch is available upon request that can define the surface of the working area and add character. Raised from the floor, a floating service unit in 18mm semi-mat black melamine wood provides storage room with two cupboards and a set of drawers. A recess of the volume creates a minimal and district shelf in the form. For a more solid style, the Spider Executive Office Desk is also available in a complete black finish in Ash wood veneer, with a teal profile edge for the working area and the service unit.

The model is recommended from an extended suite, which includes bookcases, conference tables and coffee tables under the collections of spider, Atlas and Egg.
