

executive office desk | **BOSS**description:

Pure lines with an architectonic soul characterise the Boss Executive Office Desk. Materiality is a key focus. A 39mm ribbon of melamine wood form the main working surface that folds and touches the ground on one side, while resting on a continuous volume of white in 30mm melamine wood. This detail is designed to create the illusion of a floating desk within minimal and neutral spaces. The white volume can also be extended on one side offering a secondary surface area, as well as storage with a fixed drawer that includes a lock. A central locking system is also available. The working surface is also available in a collection of other melamine finishes and wood veneers.

The model is recommended from an extended suite, which includes bookcases, conference tables and coffee tables under the collections of Atlas and Egg.
