

executive office desk | DIAS

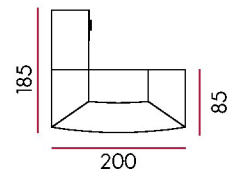

description:

Contrasting materials and colours create the timeless design of the Dias Executive Office Desk. The furniture itself becomes a platform on which the clients project their own personality. A single level-working surface is featured in 36mm melamine wood with a core detail in leather and central to the pattern formed around it. Solid wooden legs touch the ground, and are coated in semimat aluminium in the front and back. The side extension includes a set of drawers and lock. This model is also available in wood veneer and black aluminium legs, upon order.

The model is recommended from an extended suite, which includes bookcases, conference tables and coffee tables under the collections of Tipo and Aris.
