

executive office desk | ARIS

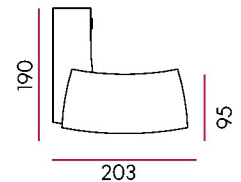

description:

The rather modern and imposing outline of the Aris Executive Office is a functional piece with an attitude. Delicate curves that form the rather modern and imposing cut out of this 30mm melamine wood surface, the Ikaros Executive Office is functional piece of furniture with an attitude. The main working area is supported by two wooden legs enhanced by sem-mat aluminium in the front and back side. It is also accompanied by an unconventional shaped extension that follows the same curvy attitude and provides further working area and a set of drawers with a lock.

The model is recommended from an extended suite, which includes bookcases, conference tables and coffee tables under the collection of Aris and Tipó.
